B. People oriented change

Merubah mindsets (Pemikiran):

1. Creating hope
2. Building beliefs
3. Shifting paradigms
4. Courage to Take Action

Creating hope

What is your Dream ?

Creating hope

Creating a New Vision

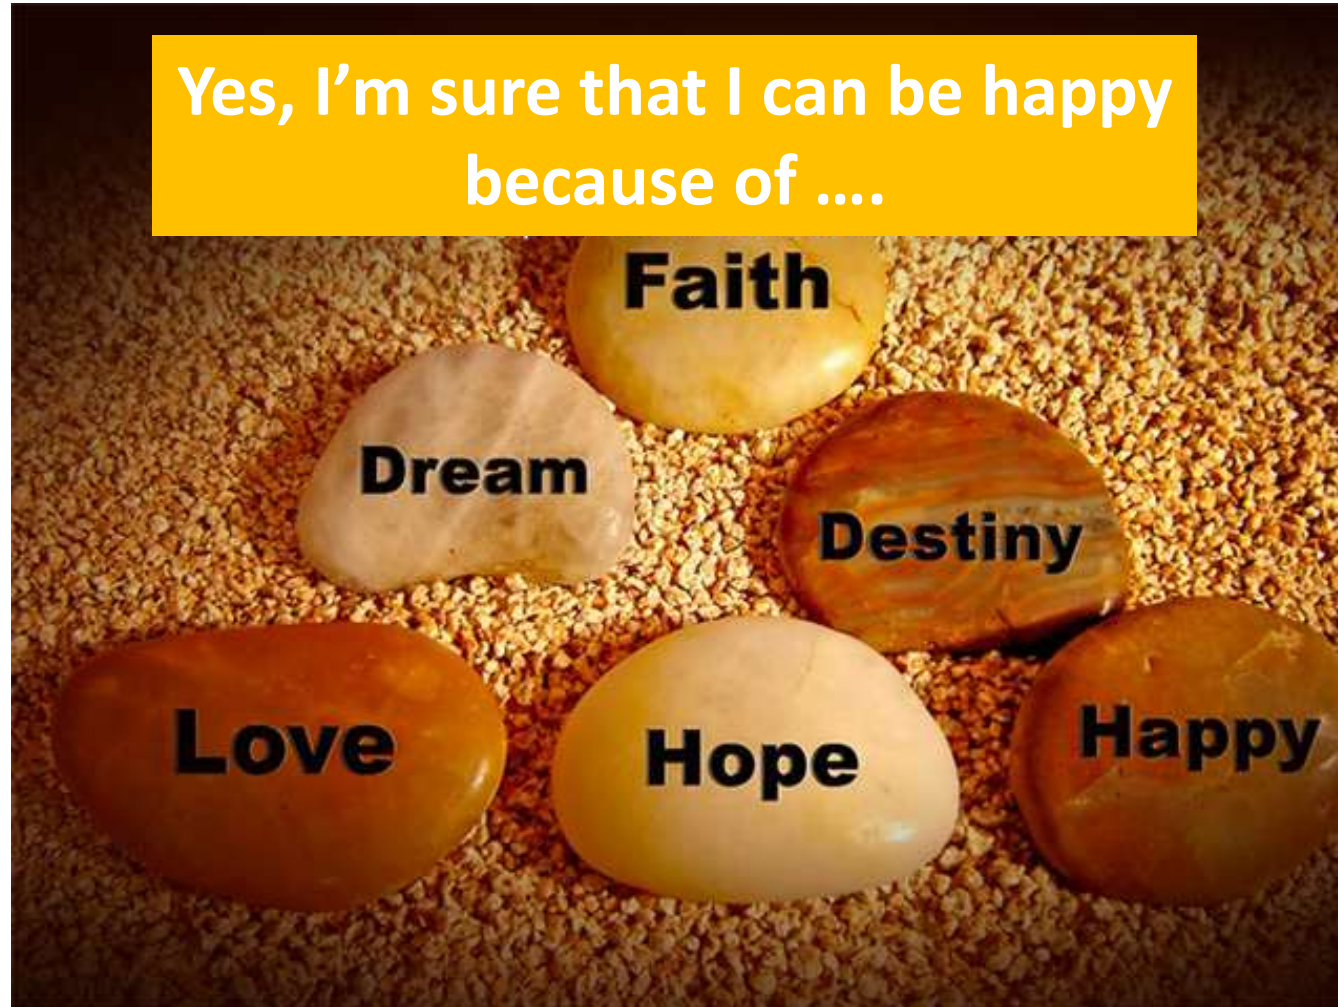

- ☐ Vision adalah kenyataan yang belum terjadi
- ☐ Vision bukanlah sebuah mimpi
- ☐ Vision me-refleksikan pengertian yang mendalam yang mampu membuat seseorang untuk mendeteksi trend (perubahan) atau membawa seorang Leader untuk melewati waktu sekarang menuju waktu yang akan datang
- ☐ Sebuah vision adalah lebih daripada sebuah rencana atau sebuah tujuan, Vision adalah sebuah gambar dari apa yang kita inginkan di masa yang akan datang
- ☐ Leader mempunyai tanggungjawab untuk mentransformasikan tanggung jawab tersebut ke dalam kenyataan

Creating hope

A true vision harus menyajikan sebuah gambar yang jelas dari masa depan yang diinginkan – dimana Visi tersebut harus merepresentasikan sebuah pencapaian, menantang (challenging), dan adanya range waktunya– range target dimana akan mendorong orang-orang untuk lebih semangat mencapainya.

2. Building beliefs

Yes, I'm sure that I can be happy
because of

Building beliefs

Values and Beliefs

- ☐ Values and beliefs adalah dimensi critical dalam ke-efektifan peran leadership karena mereka yang menjalankan serta mengarahkan.
- ☐ Seseorang dengan Visi tapi tidak dapat meng-artikulasikan beliefs dan values dan akibatnya akan meng-inspirasi orang lain hanya sebagai PEMIMPI bukan sebagai seorang LEADER

Building beliefs

Values and Beliefs

- Tetapkan tujuan (Goals) yg challenging goals dengan standard yang sangat tinggi
- Kenali factor-faktor sukses dalam pencapaian melalui insentif and rewards lainnya
- Ciptakan sebuah ***culture*** yang partisipatif dan kooperatif melalui organisasi and juga antar divisi-divisi
- Kembangkan tempat bekerja yang high quality, creative, receptive, dan adaptive untuk menunjang pengembangan potensi employees

3. Shifting Paradigms

	<u>OLD PARADIGMS</u>	<u>NEW PARADIGMS</u>
THE BUSINESS	Ore-Mining Exploitation (Exp) Up-stream industry	Mining-Based Processing (exp) Down-stream industry
THE OPERATIONS	Local and Domestic organization (Mind-set) Local standards	Global and International Operations (Mind-set) World-class standards
THE QUALITY	Good organization	Great Institution
THE PEOPLE	People = Costs	People = Human Capital, Strategic Assets and Strategic Partners
LEADERSHIP	Managers are promoted	Leadership is earned. You do not need a title to be a leader.
	Transactional Leaders	Transformational Leaders
	Effective Managers should be nice and kind.	Effective Leaders deliver results.
LEADERSHIP DEVELOPMENT	Survival of the fittest (By Nature)	Development of the fittest (By Nature + Nurture)

Shifting Paradigms

	<u>OLD PARADIGMS</u>	<u>NEW PARADIGMS</u>
THE CULTURE	Strategy and Culture are independent and standing alone	Culture can drive or drag Strategy
	Build Any Culture	Build High Performance Business Culture
DEVELOPMENT	Training	Learning
	Class Training – Training is one way & knowledge transfer.	Learning can be any where and by any means. The role of Interventions are key.
	Training = Costs (Key word: REDUCE!)	Development = Investment (Key word: MEASURE THE RETURNS!)
COST	Efficiency	Effectiveness (Cost Conscious-ness is still important)
	Bureaucratic Operations	Speedy + Agile Operations

Shifting Paradigms

4. Courage To take Action

- **Leader harus fokus lebih kepada proses ke-disciplinan, determinasi, courage (keberanian) yang diperlukan untuk menyelesaikan pekerjaan/tugas**

("A unique feature of the human brain is its ability to form mental images of the future and to translate these images into reality through leadership and action")

- **Leaders harus fokus lebih daripada hanya ke vision and values. Mereka harus punya kedisiplinan, energi, determinasi, dan keberanian untuk membawa mereka melewati periode-periode yang penuh dgn kesulitan-kesulitan dan lebih penting lagi, menjaga mereka untuk tetap maju sama baiknya pada saat melewati waktu-waktu yang baik.**

Dua Strategy menghadapi Perubahan

- Incremental Change Strategy

Perubahan yang diperlukan terkait dengan kondisi sequential order

- Fundamental Change Strategy
